### PAUL'S TIPS:

A soil test takes the guesswork out of lawn care, giving you precise measurements of pH as well as the quantity and availability of nutrients like nitrogen and phosphorus (home kits are usually reliable for pH only). Contact a [cooperative extension](#) service to conduct the test; they cost around \$20.

### Angie's List Review by Steve L. Mont Vernon

"The landscaping at our second house had been neglected too long, and weeds were growing everywhere. In some parts, they were more than six feet tall. Plants had also encroached on the 700' driveway and tree branches were overhanging it. We needed to clean it all up to prepare the house for sale.

Paul responded to my inquiry almost immediately. Although Mont Vernon is not a town he usually covers, he agreed to do this as a one-time job. We met him at the house, with one of his staff, and walked around everything multiple times. Paul pointed out things that needed to be done and identified plants that should be saved.

The next week, two workers, both named Jake, showed up and got to work. They spent two full days on the cleanup effort, clearing the jungle of weeds and applying mulch to

make it look fabulous. The driveway was cleaned up with brush cut back away from the edges and overhanging branches cleared. Lastly, on the third day, the grass was mowed and a set of old wooden stairs was hauled away.

Communication was excellent as was the professionalism of Paul and his crew. I would definitely use his services again, and since he does cover Nashua, where I live, I will likely do so! "

#### Company Response:

"We couldn't be more pleased to see this review when we got back from vacation! We like transforming landscapes and work hard to make sure we're exceeding customers expectations. We go the extra mile literally, even going outside our service area to ensure we are taking care of Angie's List

customers. This house is in a beautiful setting and I have no doubt it will sell easily. Jake and Jake were the best crew to send to this job. I passed the review on to them and they appreciated the compliments.

Thank you very much for supporting a local small business. We appreciate the patronage. Thanks too for helping us contribute to our cause, New Hampshire Breast Cancer Coalition. With your help they are able to keep the Support Services Fund going. It helps the many New Hampshire residents affected by this devastating disease by paying household bills incurred during treatment. We look forward to serving your future needs as well.

Thanks again for your business."

### Customer Highlight

Jan from Merrimack, NH has been a satisfied customer of Koehler Landscape and Construction INC for approximately three years. Paul came to her shortly after a large, twenty year old tree on her front lawn was destroyed by a winter storm. He assessed the damage and they both agreed it had to be re-

moved. Jan was pleased at how quickly he attended to the matter. She explained that Paul replanted a new tree and took special care as to its presentation. Jan says, "He (Paul) is very thorough, professional and thoughtful in everything he takes on. He comes back to check his work and make sure I am

happy with the results. He takes care of my yard as if it were his own." Although the leaves are ready to fall, Jan is not worried. She will be apple picking and baking her pies without having to be concerned with outdoor work. She knows she can just call Paul at Koehler Landscape and Construction INC.
